Plugs

CPS® C-PARTS SOLUTIONS

Optimize the supply of your production materials.

Würth Industrie Service is your complete range supplier and logistics service provider for assembly technology, helping you to optimize your C-Parts supply. With a range of over 1,000,000 articles, we are the ideal partner for the optimized production supply of small parts.

In addition to our standard product range, we provide special and customer-specific drawing elements in our Kanban solutions.

With innovative new features in our Kanban-services such as removeable labels, the patented W-KLT®2.0, the Würth Shelf System, and CPS®ONLINE, Würth Industrie Service offers maximum cost savings, transparency through the entire process and above all: the highest possible security for your C-Parts. Using other C-Parts Solutions (CPS®) Modules, such as Kits, pre-assembled components and PPE Management, will also optimize more business processes.

Removeable label

By scanning the bins' barcodes, data is transmitted automatically and we achieve a maximum speed of order processing

- Bin size/filling quantity/storage location
- Batch traceability
- Customer article number in large print
- Use of bin lables for labelling shelves

CPS®ONLINE

CPS®ONLINE provides reporting tools and gives you the ability to track all movements of the bins online

- Continuous visibility of all bin movement
- The highest possible kanban process security
- Analysis capabilities down to the bin level
- Real-time access to all statistics

Order is created at the logistic centre

WÜRTH Kanban bins (W-KLT®2.0)

The new, patented W-KLT®2.0 allows for the best possible
use of your warehouse space
- Free and optimized access area through wide front flap
  without cross web
- Up to 50 % shelf space savings and fewer racks needed
- Up to 50 % less pollution of the articles
- Combinable with innovative RFID technology
- Four sizes complying with the VDA-standard

WÜRTH Shelf System

Less space and shelves are necessary with
the new Würth shelf system
- Optimum use of space
- Well-arranged and clean storage
- Bins and shelves are labeled
- Shelf planning and design handled by Würth

OUR CPS® MODULES

CPS®SAFETY (Personal Protective Equipment)

Our product range and storage solutions, combined with proven delivery concepts, will allow you to achieve significant cost savings by reducing suppliers and simplifying processes. In addition to the logistical system solutions, we offer our support in the lawful storage of chemicals and document management.

CPS®ASSEMBLY (Pre-assembled Components)

The CPS®ASSEMBLY module lets you purchase pre-assembled C-Parts. When integrated into your C-Parts Solutions, you can optimize your production process and minimize logistics and legal costs.

CPS®KIT (Assortments)

Your pre-commissioned C-Parts can be purchased through our CPS®KIT module. The kit can be, for example, a mounting kit for your production, a repair kit or an individual tool box. You can choose from a wide range of packaging materials and procedures, from polybag over cardboard to the W-KLT®2.0.

CPS®KANBAN light

Simplified warehouse and order processing for irregular demands or demands which can not be planned for all areas: production, maintenance and service. Individual definition of all required items easily replenished by scanning and direct data transfer.
